Dear Sir:

Assignee hereby renews its petition to the Office to accept an unintentionally delayed reference to a prior co-pending patent application in the above-identified patent application.

In a petition decision mailed September 28, 2006, Assignee's petition to accept a delayed priority claim was dismissed because a referenced application did not include at least one common inventor. Assignee inadvertently, and with no deceptive intent, incorrectly identified the application number of a related application as US Application Serial No. 09/538,526 when the related application should have been identified as US Application Serial No. 09/568,525. In response to that decision, Assignee is submitting an amendment correcting the above-identified typographical error.

In compliance with 37 CFR 1.78(a)(3)(i), this petition is accompanied by an amendment to amend the above-identified application to include a reference to prior related applications.
